

After all the lovely weather we have had during this summer and having driven to the venue in sunshine looking forward to judging outside. I really couldn't believe it when as I passed through the gates of the venue it started to rain and it continued throughout the whole morning. Such a shame as a lovely show had been set up outside. However inside it was!! The English weather! I had lovely entry of quality hounds and had to make some hair splitting decisions which inevitably led to some very nice beagles leaving the ring cardless. Heads were good with no heavy wrinkled heads and upright shoulders were definitely in the minority in this entry. My stewards kept thing moving briskly along, thankyou. There was some thunder around which I did feel affected some of the dogs. There was some nice dogs on show but the depth of quality was definitely in the bitches and a selection of nice puppies ensures some quality for the coming years.

VD (5,0) 1. Dawson & Goodall's Ch Janfrey Randal upon Rundle JW ShCM Tri of 10 years old, this boy was in immaculate condition and moved more like a 3 yr old. My BP the last time I judged beagles just before said lockdown. He was completely what I was looking for from his correct head with soft expression and dark pigmentation, strong neck and level topline, well carried tail used to balance him as he went round corners (which very few do), strong muscular quarters. When moving he wasted no energy as his balanced angulation ensured no energy was wasted as he moved round the ring. (no prancing like a hackney pony) Well handled to get the best from him. CC his 3rd and a worthy champion. 2. Jones' Ch Newlin Preston to Clairdale JW, Nice boy to go over and has many of the winners good points, he was moving true with a good stride and was very fit. Henningsson- Dundas' Julemark Persephone. 1st class head with the most soft appealing expression, well placed ears and long strong neck allowing her get her head down to scent should it be necessary. Would have benefitted from a little more weight in the loin area. One who would always be in contention. 3. Hardisty's Blunderhall Stay Alert. MLB (7,2) 1. Arden's Annawah Star above Madika AW(B) tri. Her construction front and back complemented by a good head with black pigmentation and wide nostriled nose. Good length of neck leading to strong body and good ribbing. With her well muscled hind end it was not surprising to see her moving powerfully round the ring. 2. Giffin's t/w very pretty to look at and with very little amiss with her it was no surprise to find her well balanced with good shoulder and ribbing, strong hind action and moving well from every angle.
